

Emergency

americanlite®

We light your world™

10.15.2025

STANDARD

ILLUMINATION

- Long lasting, efficient ultra-bright white LED lamp heads.
- Total watts 1.6 (8 LEDs per head) total 150 lumen output.
- High-performance chrome-plated metalized reflector and plastic lens for optimal light distribution.
- Adjustable LED lamp heads provide optimal center-to-center spacing.

ELECTRICAL

- Dual Voltage 120V/277V 50-60Hz
- Charge rate/power "ON" LED indicator light and push to test switch for mandated code compliance testing.
- 3.6V600mAh long-life, maintenance-free, rechargeable NiCd battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED lamp heads for maximum 160 minute emergency illumination.
- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.
- Low voltage battery disconnection preventing deep discharge damage to the battery.

MOUNTING

- Universal mounting plate with EZ quick connect for rapid installation.
- Suitable for wall or ceiling mount.

HOUSING

- Injection-molded, engineered grade 5VA flame retardant, high-impact resistant, thermoplastic in white finish. Flame retardant rating up to 850C.

OPTIONS

- SDT: Self-diagnostic feature performs monthly and annual tests to ensure reliable operation and meet electrical and life safety codes.

WARRANTY/LISTING

- Five year warranty on all electronics and housing. Batteries three years.
- UL listed for indoor damp locations. (0°C – 40°C)
- Meets UL924, NFPA 101, NEC and OSHA illumination standards.

DIMENSIONS (MM)

PACKING INFORMATION

Pieces per master	Box Dimensions (cm)	CBM (Master)	Gross weight (Kg)
6	40.7x32.5x23	0.0304	5.1

NOTES:

- AC input and battery output include fuse to prevent fire from overload current. Once current is overloaded the fuse will break and needs to be replaced by a professional.
- Damp location is only for low or high temperature operation not for dust-proof or water-proof
- Batteries must be charged every 18 months to ensure product conservation.
- Specifications and dimensions subject to change without notice.

STANDARD

ILLUMINATION

- Long lasting, efficient ultra-bright white LED lamp heads.
- Total watts 2.4 (4 LEDs per head) total 270 lumen output.
- High-performance chrome-plated metalized reflector and plastic lens for optimal light distribution.
- Adjustable LED lamp heads provide optimal center-to-center spacing.

ELECTRICAL

- Universal Voltage 120V-277V 50-60Hz
- Charge rate/power "ON" LED indicator light and push to test switch for mandated code compliance testing.
- 3.6V 1000mAh long-life, maintenance-free, rechargeable NiCd battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED lamp heads for maximum 130-minute emergency illumination.
- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.
- Low voltage battery disconnection preventing deep discharge damage to the battery.

MOUNTING

- Universal mounting plate with EZ quick connect for rapid installation.
- Suitable for wall or ceiling mount.

HOUSING

- Injection-molded, engineered grade 5VA flame retardant, high-impact resistant, thermoplastic in white finish. Flame retardant rating up to 850C.

WARRANTY/LISTING

- Total watts 3.9 watt (12 LEDs per head)
- Luminous Flux: total 330 lumen output

ELECTRICAL

- Dual Voltage 120/277V 60Hz standard, 120/220v 60/50Hz optional.
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- 6V 2.5Ah long life, maintenance-free, rechargeable sealed lead acid battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED lamp heads for maximum 150-minute emergency illumination.
- Fully automatic solid-state, two rate charger initiates battery charging to recharge a discharged battery in 24 hours.

MOUNTING

- External mounting brackets for simplified surface mounting.
- Knockout for conduit applications.

HOUSING

- Injection-molded, engineered grade high-impact resistant, thermoplastic in gray finish. Flame retardant rating up to 850C.
- Sealed and gasketed housing with hinged cover.
- Sealed test switch.

WARRANTY/LISTING

- Five year warranty on all electronics and housing
- Batteries two years.
- Suitable for use in ambient temp (0°C – 40°C)

PACKING INFORMATION

Pieces per master	Box Dimensions (cm)	CBM (Master)	Gross weight (Kg)
10	56.5x39x25	0.0550	9.5

NOTES:

- Batteries must be charged every 6 months to ensure product conservation.
- Specifications and dimensions subject to change without notice.

STANDARD

IP20

ILLUMINATION

- Ultra-bright, energy efficient, long-life Red or Green LED.
- Energy efficient LED technology.
- Decals and template provides for chevron directional indicators.
- UV-stabilized ultra-clear acrylic edgelit panel provides consistent, uniform illumination.

ELECTRICAL

- 110V-220V / 50/60Hz
- Power Consumption: 110v is 1w and 220V is 2.55w
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- LVD (low voltage disconnect) prevents battery from deep discharge.
- 3.6V 500mAH maintenance-free, rechargeable sealed lead acid battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED board for minimum 6-8-hours emergency illumination.
- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.

MOUNTING

- Mounting brackets included-provides top, end or back mount convenience.

HOUSING

- Injection-molded, engineering-grade, 5VA flame retardant, high-impact resistant, thermoplastic in white or black finish.

OPTIONS

- Edgelit Salida panels available to order separately (contact customer service).
- Double face utilizes a silver mylar insert.

WARRANTY

- Five year warranty on all electronics and housing. Batteries 3 years.
- Indoor damp locations (0°- 40°C).

RECESSED ALUMINUM EDGELITE
EXIT SIGN

STANDARD

ILLUMINATION

- Ultra-bright, energy efficient, long-life Red or Green LED.
- UV-stabilized ultra-clear acrylic edgelit panel provides consistent, uniform illumination.
- Double face utilizes factory installed silver or white mylar background panel.

ELECTRICAL

- Universal Voltage 120V-277V 50-60Hz
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- 4.8V/500mAH long life, Ni-MH battery for minimum 90 minute emergency operation
- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.
- Test Switch and charge indicator

MOUNTING

- Mounting bar hanger included, suitable for drywall or drop ceiling installation.
- Removable front cover for easy installation and battery maintenance.

HOUSING

- Aluminum housing with high grade acrylic panel.
- Self-adhesive chevron appliques and guide template provided for directional indication.

WARRANTY

- Five year warranty on all electronics and housing. Batteries 3 years.
- Meets UL924, NFPA 101, NEC and OSHA illumination standards.
- UL listed for indoor damp locations (0°- 40°C).

WET LOCATION LED EXIT SIGN

STANDARD

ILLUMINATION

- Ultra bright, energy efficient, long life Red or Green LED.

ELECTRICAL

- Dual Voltage 120V/277V 50/60Hz
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- 3.6V 500mAH Long life, maintenance-free, rechargeable Ni-Mh battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED board for minimum 180-minute emergency illumination.
- Fully automatic solid-state, two rate charger initiates battery charging to recharge a discharged battery in 24 hours.

MOUNTING

- Universal J-Box mounting.

HOUSING

- Injection-molded, thermoplastic ABS housing and polycarbonate cover, UL 94V-0 flame rating.
- Easy snap-out chevron directional indicators.
- Letter 6" height with 3/4" stroke.

WARRANTY/LISTING

- Five year warranty on all electronics and housing. Batteries 3 years.
- Meets UL924, NFPA 101, NEC and OSHA illumination standards.
- UL listed for outdoor wet locations (-20°- 40°C).

BI-COLOR LED EXIT & EMERGENCY COMBO

STANDARD

ILLUMINATION

- Long lasting, efficient ultra bright white LED lamp heads.
- 1 watt per head (8 LEDs x 0.125), 250 Lumens total.
- High performance chrome-plated metallized reflector and plastic lens for optimal light distribution.
- Adjustable LED lamp heads provides optimal center-to-center spacing. Optional high-lumen heads are available for increased center-to-center spacing.
- Long life, energy efficient Red or Green Selectable. (Color Selectable switch to choose RED or GREEN) Interchangeable color lenses included.

ELECTRICAL

- Dual Voltage 120V/277V 50/60Hz
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.
- 3.6V 1200mAh Long life, maintenance-free, rechargeable Ni-MH battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED board and LED lamp heads for minimum 90-minute emergency illumination.
- Fully automatic solid-state, two rate charger initiates battery charging to recharge a discharged battery in 24 hours.
- Remote capacity option available.

MOUNTING

- Easy-snap mounting canopy included for top or end mount.
- Universal K/O pattern on back plate for wall mount..

HOUSING

- Injection-molded, thermoplastic ABS housing PMMA lamp diffuser, UL 924V-0 Flame rating in white or black finish.
- Easy snap-out chevron directional indicators.

WARRANTY/LISTING

- Five year warranty on all electronics and housing. Batteries 3 years.
- Meets UL924, NFPA 101, NEC and OSHA illumination standards.
- UL listed for indoor damp locations (0°C- 40°C).

LED Emergency Inverter (for internal driver)

americanlite®

10w

UL Listed for factory installation or field installation

PRODUCT OVERVIEW

- To be use with fixtures with internal driver, led tubes (by pass only, no dimmable) or led lamps with max 10w.
- Constant power output - Provides constant wattage to the LED array, preventing degradation of emergency illumination for the required runtime
- Suitable for enclosed and gasket fixtures
- 0° to 50°C indoor damp location listed
- UL listed for field installation
- Durable heavy duty steel housing
- Innovative, easy installation in minutes
- 120-277VAC/50-60Hz universal voltage operation
- Built-in Nickel cadmium battery for minimum 90 minutes emergency operation
- Maximum 24 hours for full recharge time
- Test switch and charge indicator

DIMENSIONS (MM)

SPECIFICATIONS

Mode of Operation	Works with internal driver fixtures only
Input Wattage	5.5W
Input Current	65-45mA
Output Voltage	180-320VDC(120-230VAC)
Output Power	10W Max
Battery	6V5000mAh Ni-Cad
Max Charge Current (mA)	230mA
Max Discharge Current (mA)	2500mA
Lumen Output	100%
Working Temperature	0°C-50°C
Warranty	3 Years

WIRING DIAGRAM

NOTES

- Batteries should be installed within a year. Batteries must be tested and recharged at least once every 18 months to maintain proper function and avoid loss of warranty.
- Lighting fixture or lamp power should not exceed EM driver power to avoid damage and loss of warranty.

ORDERING INFORMATION

Model	Packing information	Options
AL585007	40 x 25 x 15.5 cm / 6 pcs per master / G.W. 9 / N.W. 8 KGS	Without conduit, add "X" after code

LED Emergency Inverter (for internal & external driver)

americanlite®

20w

PRODUCT OVERVIEW

- To be use with fixtures with internal and external driver, led tubes (by pass only, no dimmable) or led lamps with max 20w.
- Constant power output - Provides constant wattage to the LED array, preventing degradation of emergency illumination for the required runtime
- Suitable for enclosed and gasket fixtures
- 0° to 50°C indoor damp location listed
- UL listed for field installation, meets UL924
- Durable heavy duty steel housing
- Innovative, easy installation in minutes
- 120-277VAC/50-60Hz universal voltage operation
- Built-in Nickel cadmium battery for minimum 90 minutes emergency operation
- Maximum 24 hours for full recharge time
- Test switch and charge indicator

DIMENSIONS (MM)

UL Listed for factory installation or field installation SPECIFICATIONS

Mode of Operation	Works with internal & external driver fixtures less than 20w
Input Wattage	6.5W
Input Current	85-65mA
Output Voltage	180-320VDC

SPECIFICATIONS

Mode of Operation	Works with internal driver fixtures only
Input Wattage	6.5W
Input Current	85-65mA
Output Voltage	110-180VDC (120VAC)
Output Power	40W Max
Battery	11.1V7000mAh Li-Ion
Max Charge Current (mA)	350mA
Max Discharge Current (mA)	5000mA
Lumen Output	100%
Working Temperature	0°C-50°C
Warranty	3 Years

WIRING DIAGRAM

NOTES

- Batteries should be installed within a year. Batteries must be tested and recharged at least once every 6 months to maintain proper function and avoid loss of warranty.
- Lighting fixture or lamp power should not exceed EM driver power to avoid damage and loss of warranty.

ORDERING INFORMATION

Model	Packing information	Option
AL585027	46.5 X 32 X 26.5 cm / 6 pcs per master / G.W. 12.7 KGS / N.W. 11.7 KGS	Without conduit, add "X" after code

LED Emergency Inverter (for internal driver)

americanlite®

40w

PRODUCT OVERVIEW

- To be use with fixtures with internal driver, led tubes (by pass only, no dimmable) or led lamps with max 40w.
- Constant power output - Provides constant wattage to the LED array, preventing degradation of emergency illumination for the required runtime
- Suitable for enclosed and gasket fixtures
- 0° to 50°C indoor damp location listed
- ABS housing
- Innovative, easy installation in minutes
- 120-277VAC/50-60Hz universal voltage operation
- Li-ion for minimum 90 minutes emergency operation
- 90 minutes emergency operation
- Maximum 24 hours for full recharge time
- Test switch and charge indicator

LED Emergency Driver (for external driver)

americanlite®

4w

UL Listed for factory installation or field installation

PRODUCT OVERVIEW

- To be use with fixtures with external driver
- Constant power output - Provides constant wattage to the LED array, preventing degradation of emergency illumination for the required runtime
- Suitable for enclosed and gasket fixtures
- 0° to 50°C indoor damp location listed
- UL listed for field installation
- Meets UL924
- Durable heavy duty steel housing
- Innovative, easy installation in minutes
- 120-277VAC/50-60Hz universal voltage operation
- Built-in Nickel cadmium battery for minimum 90 minutes emergency operation
- Maximum 24 hours for full recharge time
- Test switch and charge indicator

DIMENSIONS (MM)

SPECIFICATIONS

Mode of Operation	Works with external driver fixtures only
Input Wattage	5W
Input Current	36-50mA
Output Voltage	30-60VDC
Output Power	4W Max
Battery	4.8V2800mAh Ni-Cad
Max Charge Current (mA)	250mA
Max Discharge Current (mA)	1500mA
Maximum Lumen Output	4w x lumen/watt of the fixture
Working Temperature	0°C-50°C
Warranty	3 Years

WIRING DIAGRAM

NOTES

- Batteries should be installed within a year. Batteries must be tested and recharged at least once every 18 months to maintain proper function and avoid loss of warranty.
- Lighting fixture or lamp power should not exceed EM driver power to avoid damage and loss of warranty.

Remote Test Switch

APPLICATION

- RTS provides remote capability for Americanlite LED ER drivers.

ELECTRICAL

- Power "ON" LED indicator light and push-to-test switch for mandated code compliance testing.

MOUNTING

- Remote Test Switch can be mounted to any standard switch box.
- Suitable for wall or ceiling mount.

CONSTRUCTION

- Injection-molded, engineering-grade, V-0 flame retardant mounting plate in white finish.

WARRANTY/LISTING

- Five year warranty.
- For indoor damp locations (0° - 40°C).

Warranty

Americanlite® is pleased to provide a 5 year limited warranty on all electronics and housing, NI-MH and NI-CD batteries 3 years, Li-ion batteries 2 years. Americanlite® warrants that the Emergency Fixtures and LED drivers comply with Americanlite®'s published specifications and are free from defects in materials and workmanship.

All our equipment is CE, TUV, FCC or UL approved and manufactured with approved components. Americanlite® reserves the right to change or improve the design or components of any of its products due to parts availability or changes in standards, without assuming any obligation to modify any product previously manufactured and without notice. All equipment is tested and inspected before shipment.

This warranty is void if the product is operated outside of its normal operating conditions. The foregoing warranty does not apply to failures caused by acts of God or as a result of any abuse, misuse, abnormal use, or use in violation of any applicable standard, code or instructions for use in installations, including, but not limited to, those contained in the Standards for the International Electrotechnical Commission. Americanlite® reserves and has the right to examine failed fixtures to determine the cause of failure, excessive lumen depreciation and patterns of usage.
